

Girls in STEM Symposium

Discover and Explore Your Passion

Thursday, October 16th, 2025

Lacawac Sanctuary Foundation invites you to save the date for the return of our Girls in STEM Symposium—a one-day immersive event designed to inspire and empower young girls to pursue their passions in science, technology, engineering, and mathematics (STEM). Through engaging conversations, discussion panels, Q&A sessions, and hands-on workshops, the Symposium aims to encourage students to explore new ideas, build confidence, and see themselves as future STEM leaders and innovators.

Register Your School or Class

If you are interested in registering your school or class for Lacawac Sanctuary's 2025 Girls in STEM Symposium, please visit www.lacawac.org/girls-in-stem-symposium and click the registration button to complete the registration form.
