Our vision is for every visitor to connect with our landscapes, biological diversity, and cultural history. Through their investigation, we hope visitors will develop a “sense of place” that fosters lasting stewardship of the region and of the environment in general. We provide opportunities for children and adults to immerse themselves in the area through experiential learning, research, and the practice of conservation.

TO OUR FRIENDS

Our vision is for every visitor to connect with our landscapes, biological diversity, and cultural history. Through their investigation, we hope visitors will develop a “sense of place” that fosters lasting stewardship of the region and of the environment in general. We provide opportunities for children and adults to immerse themselves in the area through experiential learning, research, and the practice of conservation.

WE THANK YOU FOR YOUR GENEROSITY

WE THANK YOU FOR YOUR GENEROSITY

BE A PART OF THE BIGGER PICTURE!
Lacawac Sanctuary is fortunate to have many community partners that help support the work of our environmental education and community programs. These dollars are critical to our success, but are designated specifically for the delivery of programs. As a result, every year Lacawac reaches out to our friends to ask for support through our annual appeal. **The dollars that are donated to Lacawac through the annual appeal represent the most important funds we received all year – operating dollars.**

Your gift to the annual fund provides day-to-day operating expenses which support everything from trail improvements and facility maintenance to preservation. Membership, both individual and corporate, covers only 10% of our annual budget.

Your tax deductible gift not only enables us to continue to protect Lacawac’s 550 acres of beautiful habitat but has far-reaching effects on our global community as well.

### Lacawac Today:

- Over 10,000 students taught in our education programs since 2017
- Over 50 years of scientific research on Lake Lacawac
- Over 9 miles of hiking trails on our 550-acre property free and open to the public from dawn to dusk

### Examples of what your donation to Lacawac’s Annual Fund can do:

- Provide a hands-on outreach experience for local youth in a kindergarten program ($100)
- Provide a week-long summer science program for a high-need student ($250)
- Provide four classrooms with an interactive field study ($500)

Thank you for your gift and your participation. Please make your donation using the form attached or donate online at [www.lacawac.org/annual-fund.html](http://www.lacawac.org/annual-fund.html)
