**WE THANK YOU FOR
YOUR GENEROSITY**

Our vision is for every visitor to connect with our landscapes, biological diversity, and cultural history. Through their investigation, we hope visitors will develop a "sense of place" that fosters lasting stewardship of the region and of the environment in general. We provide opportunities for children and adults to immerse themselves in the area through experiential learning, research, and the practice of conservation.

You **CAN** change
the Future!

2020 ANNUAL APPEAL

Since 1966...

Lacawac Sanctuary Field Station and Environmental Education Center has been inspiring a passion for discovery and lifelong learning in environmental sciences. Today, Lacawac brings inquiry-based science education to young and old alike. Together, we will inspire the next generation of great minds and great discoveries.

What happens when nature is a part of EVERYONE'S daily life?

Lacawac imagines a future in which knowledge of and respect for the natural world is a part of everyone's daily life. Your investment in our mission makes this a reality for our community.

From young children and their families to senior citizens, each year Lacawac focuses on increasing the number of people receiving nature and science education programs.

Through the Annual Fund, Lacawac provides science and nature outreach programs to people with little or no access to environmental education each year.

YOUR SUPPORT HELPS IN MANY WAYS

Lacawac protects over 500 acres so the general public can experience and appreciate the beauty of nature and the world around us.

Lacawac educates 2,500 children per year in our hands-on, nature immersion programs during the school year.

In 2019, over 15,000 people throughout the surrounding area and communities experienced our environmental learning opportunities.

500 acres

5,000 hands

15,000 smiles
