

# 2019 Academy Sponsorships

*Students Interested in Conservation & Environmental Science Careers*

---

## **About Conservation Leadership Academy**

Conservation Leadership Academy is a weeklong residential camp for middle and high school students ages 13-17. Participants will be immersed in STEM and Conservation activities at the beautiful and historic Lacawac Sanctuary and Field Station. Students will experience hands-on science programs along-side local conservation professionals and resident university researchers. Enjoy a day kayaking the upper Delaware River. Additional program highlights include water quality sampling on Lake Wallenpaupack, conducting tree surveys, canoeing on Lake Lacawac, fishing on Heron Pond, assisting with aquatic research in the field and in the lab, participating in bird banding, and gaining leadership skills!

## **Why sponsor our Summer Residential Academy?**

Reach youth, parents and citizens who support the next generation of science and conservation leaders. Being an academy sponsorship is a unique way for your company or organization to empower youth to become emissaries for environmental conservation. Your support will help us to provide high quality programs for youth through hands-on discovery of ecosystems and watersheds while instilling stewardship of our natural resources.
