Lacawac Sanctuary is a biological field station, environmental education center and nature preserve located along Lake Wallenpaupack in the Northern Pocono Mountains of Northeastern Pennsylvania. Lacawac Sanctuary's property is 545 acres and consists of several aquatic and terrestrial systems such as Lake Lacawac, a 52-acre pristine glacial lake designated as Registered Natural Landmark by the National Park Service.

To fulfill our mission of Research, Education and Preservation, Lacawac offers environmental education and public programs to the community as well as educating environmental stewards by communicating the core values of environmental responsibility, citizenship, inclusiveness, and the pursuit of knowledge.
