

Remind

What is Remind:

Remind is an app commonly used throughout school districts and day care centers as a way for parents and teachers/admin to effectively and efficiently connect with each other on a regular basis. It allows for two way conversations or group conversations to be sent right to the parents phones via text message. We have chosen to utilize this as we feel it is more effective than email for communication.

How do I sign up for remind:

There are two simple ways to sign up for remind

Option 1:

After registering for camp, text **81010** the corresponding code to each group

- Creature Feature: @Lacawac01
- Exploring Nature: @Lacawac02
- Eco Investigators: @Lacawac03
- Wilderness Adventure: @Lacawac04
- Art in Nature: @Lacawac05

Before approval to join the group, you will need to put the PARENTS birthday to ensure messages to the camp director will be received

Option 2:

Only use if option 1 does not work

After registering for camp, if option 1 does not work, please send the camp director an email at camp@lacawac.org with your name, phone number, and the group you registered your child for to ensure that you are added to the correct group.

I only signed my child up for 1 session and don't want to keep receiving messages, how do I leave the group when I am done?

After your child has completed the session (if only doing one session), you can text the group @Leave to no longer receive information about your assigned group.

Can I use Remind to communicate with the camp director?

Yes. Remind allows parents to privately message the camp director with guaranteed notifications during the set office hours of 7:45 AM-4:00 PM Monday-Friday
