

LACAWAC SANCTUARY

Schedule of Research Use Fees: 2023

Lacawac Sanctuary and Biological Field Station affords tremendous opportunities for ecological research, teaching, and outreach through our facilities. This includes a diversity of aquatic and terrestrial ecosystems, analytical laboratory, and unique spaces in our historic Great Camp for lodging, meetings and coursework. Please contact our administrative office (570-689-9494) or the Director of Science and Research, Dr. Beth Norman (beth.norman@lacawac.org) for reservations and additional information.

Lacawac offers a range of financial options for researchers seeking to work on site. We can invoice for services rendered according to our fee schedule below. Discounts and additional benefits are available for those who join our Consortium. We are also happy to work with PIs planning grant proposals that include Lacawac as a research site to customize a fee structure specific to the duration and frequency of Lacawac services expected over the life of the grant. Contact Beth Norman to discuss.

SITE USE

GENERAL SITE USAGE:

includes priority lake access and use of boats and canoes

	<i>Consortium Member Fee</i>	<i>Non-consortium Fee</i>
Groups of 3 or fewer	\$20/day	\$40/day
